

Oracle Database 11g: OCM Exam Preparation Workshop Ed 2

Duration: 5 Days

What you will learn

This Oracle Database 11g: OCM Exam Preparation Workshop is designed for those who are preparing to take the Oracle Database 11g Oracle Certified Master Exam. You'll review how to configure an Oracle Database 11g, Enterprise Manager Grid Control, Oracle Data Guard, Grid Infrastructure and Real Application Clusters through a combination of interactive instruction and hands-on exercises.

Learn To:

- Configure the database server.
- Install the Enterprise Manager Grid Control.
- Manage database availability.
- Understand data management.
- Configure Data Guard.
- Install the Grid Infrastructure and Real Application Clusters.
- Discuss concepts with respect to high availability and data management.

Counts Toward Hands-On Certification Requirement

This course counts towards the hands-on course requirement for the Oracle Database 11g Administrator Certification.

Please note that only Classroom Training courses meet the certification hands-on requirement. Self-Study Courses and Knowledge Center courses DO NOT meet the hands-on requirement.

Audience

- Database Administrators
- Technical Administrator
- Technical Consultant
